

*Bring Learning Alive!*

I hear and I forget.

I see and I remember.

I do and I understand.

Studying is boring, learning is fun but EXPERIENCING is TRANSFORMATIONAL.  
Your child may be scoring an A grade, but is he/she applying the concepts learnt in real life?  
If the answer is a 'No', then you're not putting your child on the right path.  
We at Practically believe in enabling an experience for students from classes 6-12 that makes learning fun, engaging & interactive. In other words, we've got their back!

LIFE-LIKE VIDEO CONTENT

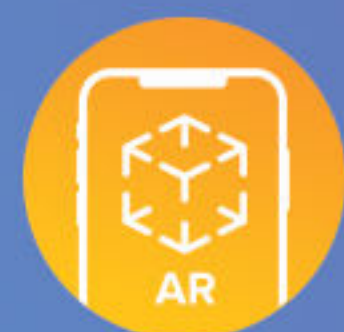

Kids can connect with what they are seeing;  
Practically establishes a real presence with the topic.

HANDS-ON PRACTICALLY LEARNING

By interacting and playing with true to life 3D simulations, kids can now learn smarter and understand better.

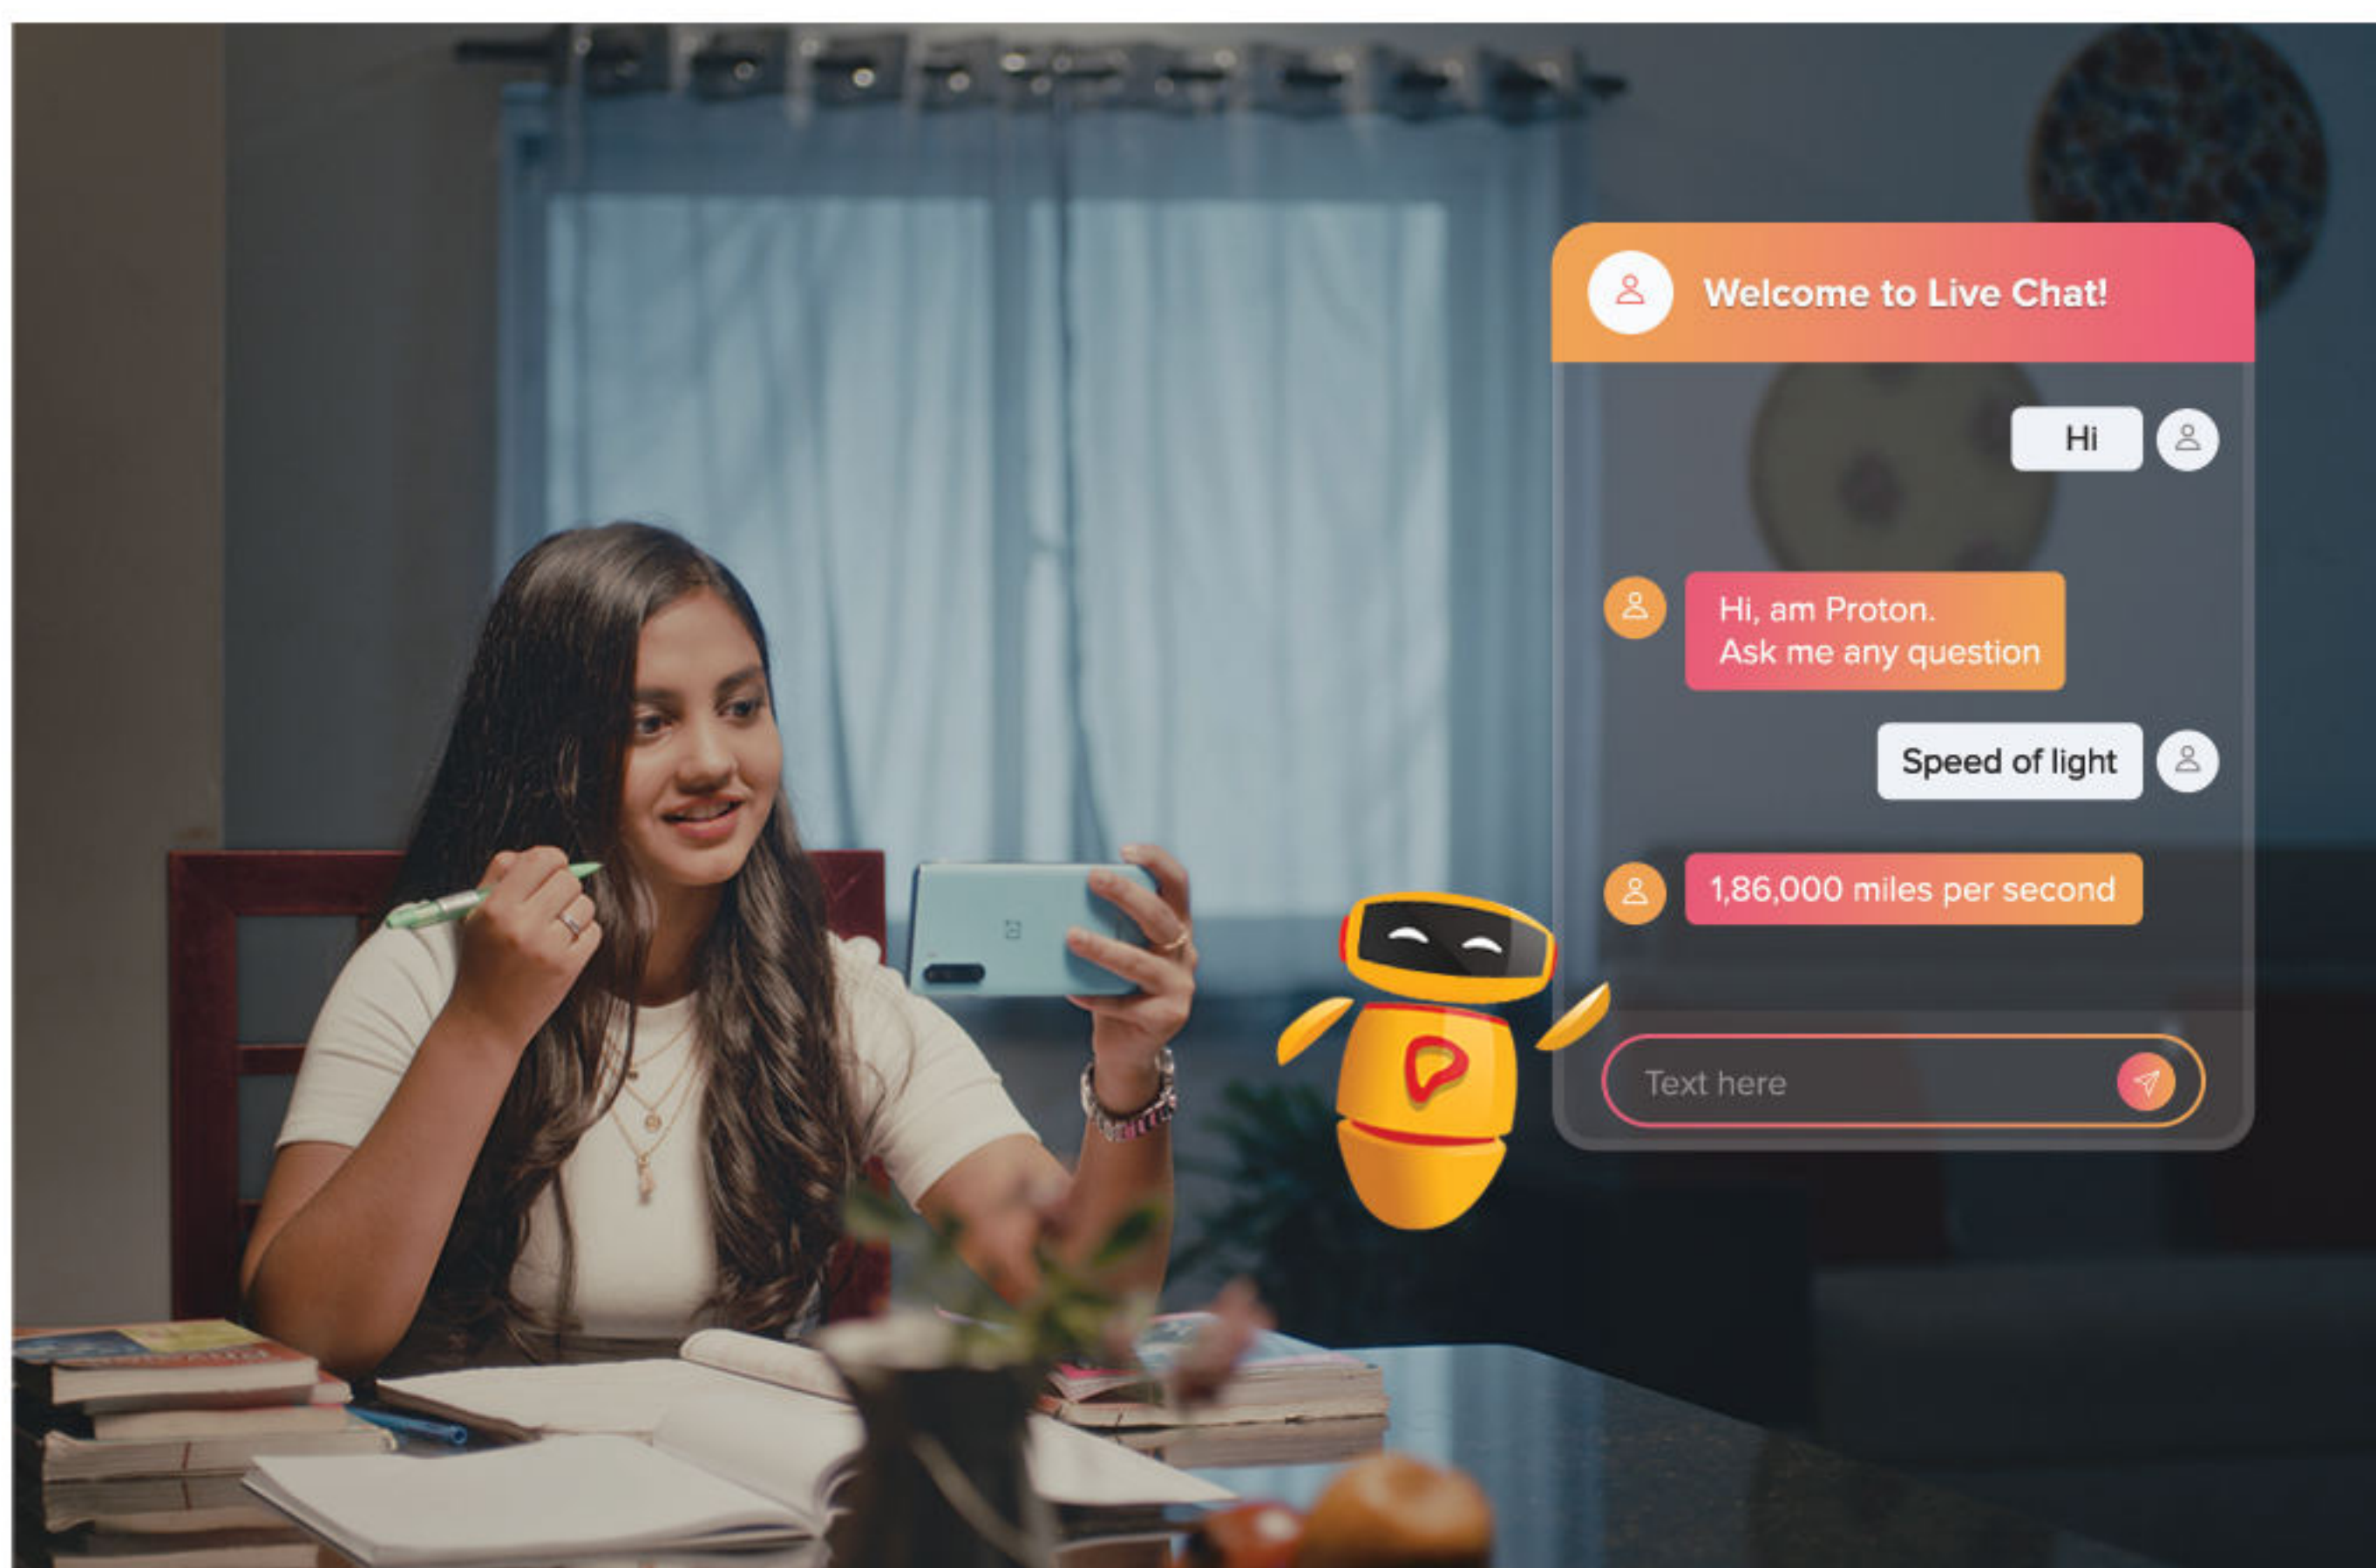

## EXPERIENTIAL LEARNING

Allows kids to experiment through trial and error, learn from their mistakes and understand the gaps between theory and practice.

## ACCESS TO SUBJECT EXPERTS

Join daily **Practically LIVE** lessons with our expert faculty. Ask your doubts using Seek Help feature. Sign up for mentoring sessions to get monthly report and follow your child's progress.

## MEET PROTON

Ask Proton, your AI-buddy anything under the sun. There is no such thing called a silly question.

## SPEAKING WITH MACHINES

**Practically++** offers coding lessons that improve analytical & logical thinking. It also boosts creativity, intuitive thinking, and imagination.

# INVEST IN YOUR CHILD'S BRIGHT FUTURE

No one understands your child's learning needs better than us.  
**WE PROMISE.**

We're not yet another online learning app. We bring learning alive.

# HAPPY USERS

## STUDENT

It's been 3 months that i have started using Practically and i already feel so much more smarter than what i was earlier. Most importantly, it saves me a lot of time in learning concepts and has improved my retention rate. Their 3D videos and simulations are the best i have seen so far.

**Sainadh**  
Student, 6th Grade

## PARENT

I have seen my child use various other learning apps before but nothing improved his learning like how Practically did. It's a one-stop solution for all his needs and also lets him take tests, challenge his friends and seek help whenever needed.

**Suresh**  
Parent of Madhunika,  
9th Grade

## TEACHER

I have been associated with Practically for the last few months and can undoubtedly claim that they are doing a wonderful job in making learning seem fun. Their approach to learning is one of a kind and motivates me as a teacher to teach more and more students.

**Praveena**  
Maths Lecturer

**With your child, through thick and thin.**

Every child with Practically gets a personalized mentor, who will provide a monthly report card, and arrange 1 - 1 monthly counselling sessions to keep you updated on your child's progress.

**World-Class Analytics For Detailed Performance Review**
