

## Math & Science Beyond Books

Total Sessions : 15

Sessions Duration : 1 Hr

---

### Course objective

This course aims to strengthen some of the fundamental concepts of Math in a fun way. After completing this course, you will be able to approach the subject with high curiosity and clarity. This course starts with the basics and then brings ample number of examples for you to solve. Join this course to get your math concepts clarified with some of the most fun teachers around.

### Course Content

- 01 Rational Numbers and Number Systems
- 02 Exponents and Powers
- 03 Understanding Quadrilaterals - 1
- 04 Understanding Quadrilaterals - 2
- 05 Homework and Doubt Discussion
- 06 Finding Square Roots
- 07 Polynomials, Identities and Factorization
- 08 Coordinate Geometry and Intro to Graphs
- 09 Homework and Doubt Discussion
- 10 Linear Equations in one Variable - 1

**11** Linear Equations in one Variable - 2

**12** Practical Geometry and Constructions

**13** Homework and Doubt Discussion

**14** Statistics

**15** Probability Basics
